## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information referred to in the information disclosure statement filed May 2, 2006 has been considered as to the merits.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country; more than one year prior to the date of application for patent in the United States.

Claims 39-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Gibson et al (6050640). Note the marked-up Figures 2 and 5, as attached. Note the housing (seat area), harness adjuster actuator (50), grip (note, as shown in Figure 2), recessed area (see Figure 6), the actuator mounted within the recessed area to lie below the front surface of the housing (in Figure 6, note the portion below the front surface), aperture (hole from which 50 extends), directional icon (see Figure 1), housing rounded edges (note in Figure 5), wherein the grip surface is a lower surface of the housing (note that this surface is lower than the upper surface of the seat).

### ***Allowable Subject Matter***

Claims 1-24 and 47 are allowed.

***Response to Amendment/Arguments***

Applicant's response filed December 11, 2006 has been fully considered. Remaining issues are described in the above sections. Applicant's amendment has overcome all previous prior art rejections. Arguments regarding application of Wiseman et al to claims 39-44 are now moot in view of the new grounds of rejection. Note the new grounds of rejection, as necessitated by Applicant's amendment.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

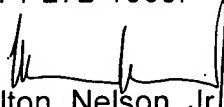

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
